What's in a name? In this case, a passionate statement of purpose. The 2017 Audi A5 2.0T Sport. The name evokes dynamic handling, peerless innovations and iconic style. Whether in its Coupe or Cabriolet form, or the exhilarating Audi S5 model, this vehicle is perfectly equipped to redefine your concept of a great drive.

# Once a sketch.

2017 Audi A5 2.0T Sport Coupe shown in Florett Silver metallic with available equipment.

# Now an icon.

At first, it was only a sketch. Over time, those lines became a dynamic statement of form, creating the striking, unmistakable silhouette of the Audi A5. It's a fluid look, framed by a signature Singleframe® grille, illuminated by standard LED day-time running lights and shaped by its iconic roofline. Standard enlarged S line® competition plus bumpers add a muscular look to the vehicle while paying homage to the spirit of Audi Sport® heritage, proving that you can make history off a single sketch on paper.

## Getting inside your comfort zone.

As we see it, you can expand your horizons on the road, but on the inside, you should revel in modern luxury. Our interior design emphasizes form and functionality, with controls intuitively placed at your fingertips. The driver-centric cockpit with a flat-bottom three-spoke multifunction sport steering wheel with shift paddles is a way to help ensure you're navigating the vehicle's capabilities while finding the way to your comfort zone.

# It's time to open up to the world.

Indulge in a world seen and felt with the top down in your Audi A5 2.0T Sport Cabriolet. Day or night, with wind gliding past you, discover a thrilling connection to the world around you—while enjoying the finer things on the inside, like standard leather seating surfaces. With its design, precision and details like a power-retractable roof, the A5 2.0T Sport Cabriolet is bringing sleek style to the open road.

## // Active rollover protection system

In the event that your Audi A5 2.0T Sport Cabriolet rolls over, sensors deploy two pop-up roll bars from hidden compartments in the rear. Reinforced A-pillars up front and safety belt pretensioners also help protect passengers. It's another way we keep innovative design a priority.

# Give peace of mind a chance.

We understand that you can't control everything you experience on the road. That's why we've engineered innovative solutions to help provide a safer road experience. This includes added strength and safety features in the vehicle, such as rigid occupant safety cell and advanced airbag technologies<sup>1</sup> and an active rollover protection system in the Cabriolet model—setting your mind a little more at ease.

<sup>1</sup> Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts, and seat children only in the rear, using restraint systems appropriate for their size and age.

# Not reliant on good looks alone.

The thrill of driving lies where power meets confidence. With standard quattro® all-wheel drive, you can experience the intensity of its precision handling. And with the added delivery of power through an available eight-speed Tiptronic® automatic transmission or six-speed manual transmission in the Coupe or standard Tiptronic® in the Cabriolet, you can have the engineering you need to unleash your vehicle's true character.

# Dressed for the role it's destined to play.

While this vehicle may move fast, its design isn't fleeting. Daring lines stretch the length of the vehicle's body to give its muscular yet sensual character.<sup>1</sup> Defining the sporty feel are details like quad exhaust tips, S bumpers and Aluminum-optic mirror housings and trim elements that look smart any season.

# S5

2017 Audi S5 Coupe shown in Glacier White metallic with available equipment.

<sup>1</sup> Always obey all speed and traffic laws.

# What's inside gives it character.

In here, character isn't built. It's revealed. Sport-contoured seats with Alcantara® or available Fine Nappa leather seating surfaces signify our dedication to craftsmanship while helping hold you through turns. Performance integrity gets even more intriguing with features that help sharpen your control, like a flat-bottom three-spoke sport steering wheel with the S5 insignia emblazoned on it. Taken as a whole, this is an interior that isn't shy about what it is.

<sup>1</sup> Tires are supplied and warranted by their manufacturer. High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels. <sup>2</sup> SiriusXM® Satellite Radio and SiriusXM® Traffic subscriptions are sold separately or as a package after trial period and are continuous until you call SiriusXM® to cancel. See Customer Agreement for complete terms and more information at [www.siriusxm.com](http://www.siriusxm.com). SiriusXM® Traffic service available in select markets. SiriusXM® U.S. Satellite Service available only to those in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). <sup>3</sup> MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. Mapping updates are available at no charge for the first five map updates and are subsequently available on a subscription basis. <sup>4</sup> Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. <sup>5</sup> Always pay careful attention to the road, and do not drive while distracted. Audi connect® should only be used when it is safe and appropriate. Audi connect® services and features are optional, provided with the support of authorized affiliated and third party service providers, and may require additional subscriptions with separate terms and conditions. Available on select models. Certain services collect location information, see Terms of Service for information about how to disable and for other details. <sup>6</sup> The features discussed are not substitutes for attentive driving. Please see your owner's manual for further details and important limitations. <sup>7</sup> Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner's literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces. <sup>8</sup> Top track speed is electronically limited in the U.S. Always obey all speed and traffic laws.
